

A child must be able to do more than decode single words to become a skilled or fluent reader. This book explores the psychology of that process. Although it includes a summary of how children learn to read words, it concentrates on the development of reading comprehension. A distinction is made between the problems of poor word decoding and poor comprehension in children. The authors analyse both the skills of fluent adult readers and the development of children's language from the age of five when most are starting to read. Against this background they survey psychological research into the way children understand text, and discuss the differences between good and poor comprehenders. The book concludes with a chapter on the educational implications of this research, which discusses how comprehension problems can be identified, and how professional aids, training and remediation can help.

The Life of God in the Soul (Studies in Evangelical History & Thought), Airy Nothings Or What You Will, Handbook to the Most Excellent Order of the British Empire, containing biographies, and a full list of persons appointed to the Order, showing their relative precedence, Prospects of social security co-ordination (French Edition), 50 Ways to Use Feminine Hygiene Products in a Manly Manner, Quest for Self Fulfilment in the Novels of Anita Desai, Documenting America: Lessons from the United States Historical Documents - Homeschool Edition, The Last Centurion,
